Are You Running Down Your Dreams?

Making dreams a reality.

Joe Sharp is an expert in helping people pursue their dreams while living lives of deeper purpose. He helps individuals convert aspirations and dreams to reality while pursuing them through God's eyes. He is a published author, International business/life coach, public speaker, and has been a CEO or partner in seven business ventures in various industries. Joe draws richly from his experiences in his quest to affect the lives of businesspeople and students alike. He has a particular passion for locating the potential in young people and working to extract that goodness so it aligns with their Godly calling.

Speaking from Experience

Joe speaks from practical experience and undeniable passion. Joe began his first successful company, Sharp Innovations, Inc., in 1999, at age 20. His exceptional drive and focus has only increased over the past decade, and he wants to share his knowledge and wisdom with students. He's honest about both his successes and failures, a mindset that is a valuable commodity to be shared with our youth. It's this honesty that makes

his topics so relevant and impactful to the younger generation of Jesus followers.

Joe also draws extensively from his personal life with the realization of the power of testimony. His openness about how to make relational, spiritual, and personal dreams come true, make his lessons insightful and meaningful.

Engaging Community Youth

Joe's pioneering business endeavors and commission to influence business leaders through the message of the Gospel is not the limit of his ministry, he's recently found. Always seeking to snare every opportunity God has for him, Joe is elated to follow his call to minister to young Christians. The Chapel Series is designed to impact Lancaster area schools with his proven message of pursuing one's dreams with all due boldness and perseverance. Joe's 'dream' for this series is for community youngsters to dream big, pursue God in their dreams, and blossom into the 'dreamers' they were created to be.
